Washington, DC 20004

Dear Jim,

I am aware that my not having heard anything by 6 p.m. need mean nothing, as I also am aware that I can.

I write for a very simply purpose: I can, with only a little more reading in Case Closed, do for Stone what he cannot begin to imagine, without reference to a word Posner said about him!

I'm not going into it it now. I'm annotating the book.

I'm telling you that if Stone were to hold a press cinference with me as of now, without my going farthur, I believe that the Posner book would be aborted, really done in. With information some of which is in itself exciting.

And with documents.

I'll be reading and annotating when I can. Most of the morning is medical.

I think Stone would have trouble scripting the reality.

And I include in this areas I believe are of special interest to him.

Best,
